RESPONSES FROM JAPAN:

Dear Ms.Vicky Ireland,

We all appreciate your great and warm support "WITH CHILDREN FOR CHILDREN" in UK for Japanese children!

We're so encouraged by this action.

In the area of children's theatre arts in Japan, we have built a support team for the mental care of children in hazard towns and shelters,and have begun various actions.

Very big earthquake, Tsunami, and still-going-nuclear- plant-accident... These disasters don't compare to the previous. This situation has been undermining the fundamentals of our way of lives.

We shall overcome and create the future of Japan with children for children!

Can we introduce your actions in UK in our organisation of the area of Japanese childrens theatre?

Ms.Yuri KOBAYASHI will send you an e-mail about the details of this our propose in a several days, I think.

best regards,
yours respectfully

Dear Vicky,

Thank you very much for your effort, sympathy, and hard work. We would like to tell the other people what you have done for Japan so Mr. Ishizaka, Mr. Ohon and Mr. Fujita would like to put an article in the magazine, Theatre for Children and Young People in Japan. Could write it for this magazine? It will be No. 10 and publish in the end of this year.
1000~1500 words
Photos
Due: the end of August

We would deeply thankful if you could write it for this magazine.
Prof. Yuriko Kobayashi, Tokyo City University
